

Why Work at Cedarwood This Summer?

It's a place to experience God at work through relationship!

When staff at Cedarwood are united in Christ, He moves in ways that are beyond our imagination. God passionately loves each and every one of the teens that come to Cedarwood, and each summer we witness the powerful new life change that Jesus Christ brings to hundreds of teenagers who open their hearts to Him. If you have a strong desire to share the hope, grace, and love of Christ with teenagers, then Cedarwood is the place for you.

It's a Place to Grow!

Sharing the gospel with others while living in Christian community is a wonderful way to grow in your relationship with Jesus. You will be directly involved in introducing many teenagers to Jesus Christ this summer with the help of your peers and a personal mentor. It's not easy, but in the process, your life will be changed in ways that you never anticipated!

Ministry Experience

Since the orientation of your entire day will be ministry, you will gain experience at a rate that would not be possible in a less focused environment. This will be a big step forward in your understanding of what it takes to reach young people in our culture.

Skills Development

You will learn and develop new skills ranging from public speaking and acting to climbing and wake surfing. We are committed to excellence in all areas, and your training is no exception. You will benefit from over two solid weeks of intense training while on staff, as well as receiving evaluation and input.

Personal Care and Adventure

Camp is a place where you will learn life lessons about self-sacrifice and shared community. You will experience the bonding of a challenging staff training period and the joy of sharing both a brief mid-summer break and an end-of-summer retreat. During camp, you will be part of regular accountability and prayer groups, have some time off each day with the other staff, and receive regular input and support from senior support staff. All this is part of our commitment to your personal growth throughout the summer.

Financial Benefits

You will receive an honorarium plus the benefits of room and board, paid training, and subsidized certification programs. For details on this item, see "*Financial Policy*".
